

Training Courses

Our courses contain all the necessary information and training required for a range of industries within the drainage and construction fields, to ensure competence.

TWD Training is fully accredited by CPD so you can be sure we offer the most comprehensive courses available to the industry. We are fully insured to give you peace of mind, particularly when completing the practical element of any of the courses.

Upon successful completion of the course, you will receive a certificate sent to the email address provided upon booking (hard copies are also available, upon request).
